THE EXPERTS, INC IS SCALING ITS INFORMATION ASSURANCE/SECURITY PRACTICE TO FIGHT THE CYBER WAR

FORT LAUDERDALE, FL (August 18, 2011) – The Experts has seen a tremendous amount of growth in its Information Assurance and Security Practice in both the public and private sectors. The practice has been building its past performance and expertise since 2006 and with this momentum, The Experts will formally launch new markets and increase its resources in the National Capital Region.

“For the last several years our Information Assurance and Security Practice has seen steady growth in our Portfolio of Professional Services and expect that to double by the years’ end,” stated Mark Zanki, Chief Strategy Officer for The Experts. “It is all about the mission. Too often we find that our clients are throwing people at the problem in an attempt to protect Intellectual Property on their systems. With the right governance, risk management and compliance services combined with technology to protect the systems and the network perimeter, a high percent of breaches can be avoided. In addition to defensive standards, imposing metrics to identify and remediate threats is a key component to best practices. You have to know your risk posture as a company. We will continue to hire the best and brightest in the industry to stay ahead of the bad actors,” Zanki continued.

The Experts, Inc. is a VOSB (Veteran Owned Small Business) which provides IT and Engineering Professional Services, Systems Integration & Solutions to FORTUNE 500 and 1000 companies; State, Local and Federal Government; as well as the Department of Defense.
