**THE EXPERTS EXPANDS MANAGED SERVICES CAPABILITIES IN  
VIENNA, AUSTRIA**

**FORT LAUDERDALE, FL (February 4, 2011)** – The Experts is proud to announce the expansion of their managed services capabilities in Vienna, Austria. The Experts have expanded in the area of site services and 24x7 onsite and dispatch technical support for an existing customer in this country.

The contract requires The Experts to manage, sustain, and evaluate all areas of the customers technical level support needs around-the-clock and to maintain the management of staffing needs to oversee the ticketing response and proper technician to desktop ratio and deployment. The SOW requires installation, redeployment, removals, moves, adds and changes and PC refresh to End User client software and hardware, adhering to all the customers standard operating procedures and work instructions.

“This is an additional SOW to an existing contract and work that The Experts is already doing throughout the Nordics and parts of Western Europe. What it demonstrates is The Experts ability to cross borders quickly by showcasing our agility and our ability to source the needed personnel around the globe and in a key region being Central Europe,” commented David Hoshko, The Experts’ Chief Global Officer. “We are scaling accordingly in EMEA and have truly identified a niche in 24x7 services support that has us focusing more on areas like depot level maintenance, product movement, logistics and even off-shoring efforts in the area of customer support and network monitoring when it makes sense to the customer,” Hoshko continued.
