THE EXPERTS, INC. PROVIDES SUPPORT TO ITT ON THE SINCGARS RESET PROGRAM

TAMPA, FL (February 1, 2011) – The Experts, Inc. announced today that they have been awarded a contract with ITT to provide depot level support services to both CONUS and OCONUS locations. This program involves onsite repair and upgrade of SINCGARS Radio for the military. In addition to providing Reset personnel, The Experts is also providing administrative support and managing all travel and accommodations. James Malkovich, the Director of Operations for the TEC Division of the Experts said today, “We are very proud to offer support on this joint venture with ITT. Updating and repairing equipment that has been returned from Iraq and Afghanistan affords us a new opportunity to directly support the Warfighter.”

The prime contract, Solicitation Number W15P7T-06-R-J201, was awarded to ITT in 2006 to provide Single Channel Ground and Airborne Radio System (SINCGARS) Radios, Spares, and Engineering Services as a Firm-Fixed-Price (FFP) and Time and Materials (T&M), Indefinite-Delivery Indefinite-Quantity contract. The US Army Communications-Electronics Life Cycle Management (C-E LCMC) Command has identified this requirement to purchase increased quantities of the SINCGARS currently being procured under the SINCGARS Omnibus Contract Number W15P7T-05-D-J101. Additional quantities of SINCGARS are also required to meet backorders, increased surge demands for war requirements, and a significant increase in the requirements for new SINCGARS to support the Modular Force reorganization of the Army.

The Experts, Inc. is a VOSB (Veteran Owned Small Business) which provides IT and Engineering Professional Services to FORTUNE 500 and 1000 companies; State, Local and Federal Governments; as well as the Department of Defense.
