

FOR IMMEDIATE RELEASE

**THE EXPERTS, INC. INSTALLS GLOBAL BROADCAST SERVICE (GBS)
NETWORK TO SUPPORT USCENTCOM**

TAMPA, FL (April 14, 2009) – The Experts, Inc. announced today it has been awarded the contract to install and test the Global Broadcast Service (GBS) network in support of USCENTCOM located at MacDill Air Force Base, Tampa, Florida. CENTCOM is the unified command responsible for US security interests in 27 nations that stretch from the Horn of Africa through the Arabian Gulf region, into Central Asia. CENTCOM is one of nine unified commands in the Department of Defense.

The GBS system provides a combined space and Command, Control, Communications, and Intelligence (C3I) system that implements a one-way, high-speed flow of high-volume information to forces garrisoned, deployed, or on the move. GBS operates as a one-way, wideband transmission service capable of supporting timely delivery of classified and unclassified data and information products for mission support and theater information transfer. GBS disseminates IP-based real-time video and large data files (up to 4GB in size) over-the-air (30 Mbps per transponder) to garrisoned and deployed combat forces using smart push and user pull - information based on unit mission reception priority profiles. GBS operates from Satellite Broadcast Manager (SBM) sites, broadcast satellite payloads and receive suites (RS).

The installation of the GBS Network will “significantly enhance the timeliness and access to critical geospatial data in support of USCENTCOM operations,” stated a key J2 Staff member.

The Experts, Inc. is a VOSB (Veteran Owned Small Business) which provides IT Professional Services to FORTUNE 500 and 1000 companies; State, Local and Federal Governments; as well as the Department of Defense. The Experts, Inc. has been listed on *Inc 500* and *Inc 5000* in recent years, as one of fastest growing private companies.
